### MISSION

Our mission is to walk alongside those who are in need of healing. Through Indigenous land-based healing and education we offer connection and belonging to a community dedicated to responsible land stewardship.

We aspire to remain grounded in the Seven Grandfather Teachings of respect, truth, wisdom, honesty, humility, courage, and love.

Our vision for the future is that of a thriving community which is founded on unity, equality, and understanding as we walk forward together in healing and reconciliation.

### VISION

We envision a thriving community where Indigenous and non-Indigenous peoples live according to the original instructions and where sharing and caring for the land is everyone's responsibility. We are a community that is grounded in healing and reconciliation as we walk forward together in unity.

"You started as friends and became

family. And the lessons and growth that has been happening in my life I wouldn't change for the world. I'm honoured to be a firekeeper and can't wait for more time on the land.

Miigwetch"
